

Supplier Opportunities

Supporting local employment, businesses and regional economic growth.

Procurement opportunities for ACEN Australia projects will be advertised progressively through dedicated ICN Gateway project pages.

Suppliers are encouraged to register with ICN Gateway at www.gateway.icn.org.au and ensure their profiles remain current.

ACEN Australia ICN Gateway page- <https://acenaustralia.icn.org.au>

ACEN Australia is committed to maximising local and regional participation across all project phases: Development, Construction, and Operations & Maintenance.

During Construction, opportunities will primarily come through Engineering, Procurement and Construction (EPC) contractors, each with a project-specific ICN Gateway page on the ACEN Australia ICN Gateway portal <https://acenaustralia.icn.org.au>.

Opportunities across the projects are expected as follows:

Supplier and Job Opportunities during Development

- Surveying
- Engineering and design
- Environmental site investigations

Supplier and Job Opportunities during Construction*

*Majority released via EPC Contractor

- | | | |
